What is an online Shop Window?

An online "Shop Window" is the most versatile package on offer.

The Shop Window can be almost anything you want it to be: -

- An illustrated online detailed description of your business
- A picture showcase for your products
- A menu for restaurants
- A page to display Special Offers and promotions
- An album of "before and after" photos

The opportunities are only limited by your imagination

Things are always changing and the great advantage of the Shop Window is you can keep ahead by changing the page as often as you like.

Artwork can be supplied in most PC formats, or if you do not have anything ready we offer a full design service

All prices quoted are subject to VAT
